The Next Step

We will either send you a time and date for the telephone consultation with a member of our team, or arrange this directly over the phone with you. If you have requested a 'Skype' or telephone appointment, please confirm that the time offered is convenient for you. If not, please contact our office as soon as possible so that a more suitable time can be arranged.

Please note that our fees are not refundable once the search begins after this call. However, we always give you a cooling off period during which time, if you feel that you would rather not continue, your fees will be returned without question.

Other Costs

As you probably already know, in addition to our fee, there are some other costs associated with egg donation:

Donor Treatment Costs

You are responsible for all the medical costs of your chosen donor, which will be organised and invoiced by the Licensed Treatment Centre directly. These vary from clinic to clinic and you can find these out from the clinic directly.

Donor Compensation

The HFEA have stated that egg donors should receive compensation of a fixed sum of £750 to cover all the costs of being a donor, including travel, accommodation (if needed), loss of earnings and child care etc.

In exceptional circumstances (e.g. long distance travel) the donor might also be entitled to have additional extra costs covered. The Licensed Treatment Centre will normally handle the transfer of any donor compensation.

Cancellation

Please read our terms and conditions regarding cancellation or termination.
